

PLASTIC RADIATION GLASSES

MODEL RG-X25

RG-X25-BK
(Black)

RG-X25-TR
(Tortoise)

DESCRIPTION

The RG-X25 comes with detachable side shields as an added safety feature. The shields pop out with ease for enhanced flexibility. It is a stylish and lightweight frame, designed with comfort in mind. These glasses also feature a brow guard, and a rubberized temple bar for secure grip. The frames typically fit medium to large heads, and are available in two colors – Matte Black and Tortoiseshell. This product offers our standard high quality, distortion-free SF-6 Schott glass radiation-reducing lenses with .75mm lead equivalency and .50mm lateral protection.

FEATURES

- *0.75mm Lead Equivalency Schott SF6 Radiation Protective Lenses*
- *Detachable side shields.*
- *Rubberized temple bar for secure grip.*
