

PLASTIC RADIATION GLASSES

MODEL RG-F126

RG-F126

DESCRIPTION

The RG-F126 are made out of TR-90 nylon for durability and flexibility. These glasses have a wraparound style and a lightweight design featuring removable side shields. The rubber coated temple bars offer a secure grip, and the saddle bridge nose pad makes for a comfortable fit. ANSI Z87 Safety Approved This product offers our standard high quality, distortion-free SF-6 Schott glass radiation-reducing lenses with .75mm lead equivalency and .50mm lateral protection.

FEATURES

- *0.75mm Lead Equivalency Schott SF6 Radiation Protective Lenses*
- *Saddle bridge nose pad for comfortable fit.*
- *Rubberized temple bar for secure grip.*
